AMENDMENT IN RESPONSE TO RESTRICTION REQUIREMENT

Honorable Commissioner Of Patents
Washington, DC 20231

Sir:

The Office Action dated February 26, 2003 constituted a requirement for restriction, which divided this application into 3 species. These species were (1) claims 1-16 directed to an image processing method and apparatus for displaying sensed images on an electronic view finder; (2) claims 17-59 directed to an apparatus and method for changing the optical system condition of an image sensing lens to focus the lens and for associating and synthesizing the plurality of images to obtain a panoramic image; and (3) claims 60-68 directed to an image processing apparatus comprising a detachable lens and control means to permit detachment of the detachable lens.

As between these three species, Applicant provisionally elects Species 2 (Claims 17-59). Should the Restriction be made final, Applicant expressly reserves the right to represent the non-elected species (Claims 1-16 and 60-68) in divisional applications, if necessary.
